SafeGuard Staff Duress

Active RFID

Compact, Reliable, Accurate

Duress Call

Man Down Alarm

AllGuard for Healthcare

All-in-One Active RFID Security Platform includes SafeGuard Staff Duress

SafeGuard™

Employee Safety with Duress Alarms, Real-time Tracking, Man Down Detection

Staff Tag

Lightweight, Comfortable, Configurable Buttons, Two-Way Communications

Advantages

- Comfortable, lightweight badge-style personal devices are easy to wear.
- 433MHz radio-frequency minimizes risk of missed alarms from obstructions and Wi-Fi traffic.
- Locate security events and track moving caregivers in real-time with typical accuracy of 2-4 m (6-12 ft).
- Configurability ensures the level of safety, security, and user-friendliness required.
- Enterprise capability enables centralized monitoring and allows caregivers to transfer easily between facilities.

A New Level of Healthcare Worker Safety:

Superior Communication Technology, Accurate Real-time Location and Tracking, and Comfortable Personal Devices

GuardRFID's SafeGuard Staff Duress delivers the most advanced Duress Call and Man Down Alarm system available to healthcare workers. A component of AllGuard Integrated Security, SafeGuard comprises a 433MHz Active RFID platform field-proven for critical healthcare security applications, a compact, lightweight personal device, and the world's most robust communication protocols and location algorithms to elevate Staff Duress to a new level in performance and security. Two accurate location technologies allow you to design a system that achieves the security performance you need.

ID-badge style personal devices ensure user comfort and system adoption

Reduce risk of missed alarms associated with infrared and Wi-Fi communication

Eliminate critical delays caused by ambiguous location information

Automatically track a caregiver in case they are still moving after an alarm

Enable centralized monitoring and unified, enterprise-wide personnel safety

SafeGuard Staff Duress is 100% IP-based and in full compliance with today's corporate IT policies so implementation in one facility or throughout your enterprise is easy and highly-scalable. Whether implemented as a stand-alone Duress Call system or as part of a complete AllGuard Asset Tracking and Integrated Security Solution, SafeGuard technology delivers unparalleled safety to your hospital staff.

Contact WAPS to find out how you can use Active RFID technology to elevate your healthcare employees' safety to the next level.
